

23 JAN 1968

MEMORANDUM FOR: Director of Security

SUBJECT : Office of Security Statistical Report
for DECEMBER 1967

1. The attached tables reflect some of the activities of certain components of the Office of Security during DECEMBER 1967.

2. The statistics in the tables are compiled by the component concerned and refer to the current month.

3. Although there was a decrease in the number of support manhours worked, compared to the all-time high of November, the total number of manhours still reflects a 90% increase over that of December 1966. This tremendous support work load was a contributing factor to the cessation of RIP field assignments being made.

4. The total processing time of an applicant case has reached a high of 90 days reflecting an increase in both the field and PSD time. This could be the result of an increase in the number of cases requiring special handling, a decrease in the number of employees available for duty due to the holiday season, and the end of the "leave year."
